THE GOOD OLD DAYS

My name is Bill. I was born in a village near Cardiff in 1938. My father was a farmer, and my mother was a housewife. When my teacher retired from teaching, my mother started a small school at home. Nine other children used to come to study with us. My mother taught us French and English. Because of the war, most people didn't use to have much food. We were lucky because we had lots of land, so we used to grow our own vegetables. We also had chickens, rabbits and sheep, but my mother used to feed us lentils every day. I hated them! I still can't stand them. We didn't have a television until I was ten years old. Instead, we used to listen to the radio a lot. After school, I used to play cards and board games with my friends. We didn't have enough money for holidays. Also, there wasn't much petrol, and it was very expensive. But when I got a bit older, we bought a caravan. We used to go on trips in that caravan. Nowadays people buy so many clothes, but when I was little, people used to make their own clothes. In the past, everything used to be much more difficult, but we used to be much happier for sure.
