

GRADE 10 WORKSHEET

DIGITAL ERA UNIT 8

A Read the texts and do the activities.

Simon

I'd rather use a mobile phone than a tablet because I can take my mobile phone with me everywhere all the time. It is smaller, so it is easier to carry around. I can take and upload photos, listen to music and call my friends using my mobile phone. In my opinion, mobile phones are the best devices.

Lucy

I prefer a desktop computer over a smart TV as I can do everything on a desktop. I can watch movies, check my emails and play games on my desktop computer. It is easier to use a desktop than a smart TV. It is also way faster. I think I can't live without my desktop computer.

Pamela

I travel a lot because of my job, so I prefer a tablet over a notebook. It is easier to use, and its battery lasts longer than a notebook's battery. It is also lighter; therefore, I find it more practical to carry around. In my view, a tablet is the best alternative for me.

Roger

I'd rather use a laptop than a tablet. Tablets might be lighter and easier to carry around, but laptops have stronger hardware, and they perform better. They also have larger storage area, so I can save all my videos and photos on my laptop.

I. Write the device each person prefers.
