Soru 3:

Which question does not have an answer in the paragraph?

Would you like to teach English to teenagers abroad? We are looking for cheerful, friendly, devoted young teachers between the ages of 22-30. We offer you the opportunity of teaching in fifteen different countries. Chosen teachers will be provided with transportation, full board accommodation and a good salary. For application, please fill in the form and e-mail it to the given address.

- A) What kind of people are they looking for?
- B) In how many countries will English be taught?
- C) Are the meals and the room included?
- D) How much is the salary?
- E) How can a person apply for the job?

Soru 4:

Answer the following question according to the paragraph.

3D technology has brought many improvements into our lives, like the 3D TV. It has incredible depth, stunning sound, clarity and color. Moreover, it is the product of glasses-free, ultra-thin and energy-efficient engineering. The entertainment business will never be the same. If you're a gamer, it will give you great satisfaction with its resolution because it has '4K' (a format four times the resolutions of current HD sets) resolution. On the other hand, there stands the 3D cell phone. With this phone, the video you've shot can be seen on the phone screen without the need for special glasses. However, because of the visual angle limit, only one person can still see it clearly in 3D, unlike a 3D TV. You will be able to capture 3D content with a special double camera on the back of the phone.

According to the passage, 3D TV possesses

- A) a technique for consuming less energy
- B) nearly the same features as a 3D cell phone does
- C) energy twice as much as a 4K TV
- D) colors worse than a 3D cell phone
- E) engineers that have conservative energy methods

Soru 5:

Answer the following question according to the paragraph.

3D technology has brought many improvements into our lives, like the 3D TV. It has incredible depth, stunning sound, clarity and color. Moreover, it is the product of glasses-free, ultra-thin and energy-efficient engineering. The entertainment business will never be the same. If you're a gamer, it will give you great satisfaction with its resolution because it has '4K' (a format four times the resolutions of current HD sets) resolution. On the other hand, there stands the 3D cell phone. With this phone, the video you've shot can be seen on the phone screen without the need for special glasses. However, because of the visual angle limit, only one person can still see it clearly in 3D, unlike a 3D TV. You will be able to capture 3D content with a special double camera on the back of the phone.

What we can understand from the passage about '4K' resolutions is that

- A) they have exactly the same technology as 3D TV
- B) only one person can clearly see the videos on them
- C) their resolutions are better than those of HD sets being used
- D) they can only be experienced via 3D cell phones
- E) they were invented a long time ago

Soru 6:

Answer the following question according to the paragraph.

3D technology has brought many improvements into our lives, like the 3D TV. It has incredible depth, stunning sound, clarity and color. Moreover, it is the product of glasses-free, ultra-thin and energy-efficient engineering. The entertainment business will never be the same. If you're a gamer, it will give you great satisfaction with its resolution because it has '4K' (a format four times the resolutions of current HD sets) resolution. On the other hand, there stands the 3D cell phone. With this phone, the video you've shot can be seen on the phone screen without the need for special glasses. However, because of the visual angle limit, only one person can still see it clearly in 3D, unlike a 3D TV. You will be able to capture 3D content with a special double camera on the back of the phone.

Which of the following is the best title for the text?

- A) Tech of Engineering
- B) Tech Via 3D: TV- Phone
- C) 3D: Choose the Better One
- D) The Most Recent Improvements
- E) 4K Tech Cameras

Soru 7:
