Read the paragraph and answer the question.

Hi, I'm Lindsay. I'm a 9th grade student. My mom takes me to school every morning and then, she goes to work. Yesterday I was late for school. Because when my mom and I were about to get on the car, we noticed that another car had been parked just behind ours on the street. We had to wait for the driver to arrive for about ten minutes. Then, he pulled his car into an empty parking space, and we got on ours, fastened our seat belts and guess what...? It didn't work! Mom told me to get out of the car and push it. At first, I thought mom was kidding me, but when I looked at her in the rear view mirror, I understood that she was extremely serious. Desperately, I did what she said but nothing changed, the car didn't work again. So, we had to call a taxi. When I finally arrived at school, it was nearly 9.30. That meant I had missed nearly the half of the first lesson.
