

Reading Activity

1. Read the text and complete the table.

There are different types of houses. Some people live in a detached house, a semi-detached house, or a terraced house. Others live in a block of flats. A bungalow has only one floor, but a penthouse is at the top of a building. Some families prefer a villa or a cottage because they are spacious and comfortable.

Every house has different rooms. A house usually has a bedroom, a sitting room, a kitchen, a bathroom, and a dining room. Some houses also have a garage, a utility room, a corridor, a terrace, and a garden.

Each room has its own furniture and appliances. In the sitting room, you might find a sofa, an armchair, a coffee table, a carpet, and curtains. In the bedroom, there is a wardrobe and a bedside table. In the kitchen, you might find a fridge, an oven, and a dishwasher.

People do many activities at home. For example, they have dinner in the dining room. They make the bed, tidy up, clean, and wash the dishes. They also watch TV, relax, play computer games, read books and chat. There is no place like home.

Emma: Why not?

Leo: She is washing the dishes and preparing the table.

Emma: Can you help me then?

Leo: Not now, Emma. I am tidying up my room.

Emma: Fine. I am not doing it then; after dinner, they'll help me.

Leo: Hold on. Are you watching TV instead of studying?
