## İSTİKLÂL MARŞI

Korkma, sönmez bu şafaklarda yüzen al sancak;  
Sönmeden yurdumun üstünde tüten en son ocak.  
O benim milletimin yıldızıdır, parlayacak;  
O benimdir, o benim milletimindir ancak.

Çatma, kurban olayım, çehreni ey nazlı hilâl!  
Kahraman ırkıma bir gül! Ne bu şiddet, bu celâl?  
Sana olmaz dökülen kanlarımız sonra helâl.  
Hakkıdır Hakk'a tapan milletimin istiklâl.

Ben ezelden beridir hür yaşadım, hür yaşarım.  
Hangi çılgın bana zincir vuracakmış? Şaşarım!  
Kükremiş sel gibiyim, bendimi çiğner, aşarım.  
Yırtarım dağları, enginlere sığmam, taşarım.

Garbın âfâkını sarmışsa çelik zırhlı duvar,  
Benim iman dolu göğsüm gibi serhaddim var.  
Ulusun, korkma! Nasıl böyle bir imanı boğar,  
Medeniyet dediğin tek dişi kalmış canavar?

Arkadaş, yurduma alçakları uğratma sakın;  
Siper et gövdeni, dursun bu hayâsızca akın.  
Doğacaktır sana va'dettiği günler Hakk'ın;  
Kim bilir, belki yarın, belki yarından da yakın.

Bastığın yerleri toprak diyerek geçme, tanı:  
Düşün altındaki binlerce kefensiz yatanı.  
Sen şehit oğlusun, incitme, yazıktır, atanı:  
Verme, dünyaları alsan da bu cennet vatanı.

Kim bu cennet vatanın uğruna olmaz ki feda?  
Şüheda fışkıracak toprağı sıksan, şüheda!  
Cânı, cânânı, bütün varımı alsın da Huda,  
Etmesin tek vatanımdan beni dünyada cüda.

Ruhumun senden İlahî, şudur ancak emeli:  
Değmesin mabedimin göğsüne nâmahrem eli.  
Bu ezanlar -ki şehadetleri dinin temeli-  
Ebedî yurdumun üstünde benim inlemeli.

O zaman vecd ile bin secde eder -varsa- taşım,  
Her cerîhamdan İlahî, boşanıp kanlı yaşım,  
Fışkırır ruh-ı mücerret gibi yerden na'sım;  
O zaman yükselerek arşa değer belki başım.

Dalgalan sen de şafaklar gibi ey şanlı hilâl!  
Olsun artık dökülen kanlarımın hepsi helâl.  
Ebediyyen sana yok, ırkıma yok izmihlâl;  
Hakkıdır hür yaşamış bayrağımın hürriyyet;  
Hakkıdır Hakk'a tapan milletimin istiklâl!

## GENÇLİĞE HİTABE

Ey Türk gençliği! Birinci vazifen, Türk istiklâlini, Türk Cumhuriyetini, ilelebet muhafaza ve müdafaa etmektir.

Mevcudiyetinin ve istikbalinin yegâne temeli budur. Bu temel, senin en kıymetli hazinendir. İstikbalde dahi, seni bu hazineden mahrum etmek isteyecek dâhilî ve hâricî bedhahların olacaktır. Bir gün, istiklâl ve cumhuriyeti müdafaa mecburiyetine düşersen, vazifeye atılmak için, içinde bulunacağın vaziyetin imkân ve şeraitini düşünmeyeceksin! Bu imkân ve şerait, çok namüsaît bir mahiyette tezahür edebilir. İstiklâl ve cumhuriyetine kastedecek düşmanlar, bütün dünyada emsali görülmemiş bir galibiyetin mümessili olabilirler. Cebren ve hile ile aziz vatanın bütün kaleleri zapt edilmiş, bütün tersanelerine girilmiş, bütün orduları dağıtılmış ve memleketin her köşesi bilfiil işgal edilmiş olabilir. Bütün bu şeraitten daha elîm ve daha vahim olmak üzere, memleketin dâhilinde iktidara sahip olanlar gaflet ve dalâlet ve hattâ hıyanet içinde bulunabilirler. Hattâ bu iktidar sahipleri şahsî menfaatlerini, müstevlîlerin siyasî emelleriyle tevhit edebilirler. Millet, fakr u zaruret içinde harap ve bîtap düşmüş olabilir.

Ey Türk istikbalinin evlâdı! İşte, bu ahval ve şerait içinde dahi vazifen, Türk istiklâl ve cumhuriyetini kurtarmaktır. Muhtaç olduğun kudret, damarlarındaki asil kanda mevcuttur.

Read the text about “Walking Mansion” and place the words “first”, “then” and “finally” in the gaps.

People all over the world will soon watch the television documentary about the legendary “Walking Mansion” (Yürüyen Köşk) in Yalova. The story behind the name “Walking Mansion” is interesting:

Atatürk often came to Yalova to visit the thermal facilities there. On one of his visits, a large plane tree in the

Millet Farm near Yalova Pier attracted his attention. Atatürk rested in the shadow of the plane tree for a while and ordered to build a kiosk near that tree. A mansion was built there in 1929.

When Atatürk went to the mansion one day, in the summer of 1930, a gardener asked for permission to cut a branch of the plane tree because it was slowly sinking into the mansion and hitting the roof. They said the branch would damage the roof and the wall. Atatürk didn't want them to cut the branch of the tree, so he asked them to move the building a little further on tram rails. Some engineers and technical staff came to Yalova. When the team dug the foundations and went down to the basic level, tram rails were brought from İstanbul.

They planned the execution of the mansion in two stages. \_\_\_\_\_ on August 8, 1930, they positioned the terrace section of the building on the rails. \_\_\_\_\_, in the next two days, they placed the main building foundations on the rails. While they were working, Atatürk was following the construction execution. \_\_\_\_\_, they shifted the building to the east by 5 meters and the construction was completed.

Atatürk rested in this mansion and drank his coffee under the plane tree many times after this event. Before he died, he donated the mansion to the Turkish nation like all his immovables. Currently, it is partly open to the public as a house museum.

This event shows that the legendary leader Mustafa Kemal Atatürk gave a lot of importance to the environment and his efforts to protect a tree carried strong environmental messages.

### The Discovery of Fire

In Tierra del Fuego people say that once there lived two good spirits, the brothers Alvarado. One day, the elder brother found some stones and he repeatedly beat them against each other. One of these stones was a flintstone. And when he was playing with it, a spark arose suddenly. Alvarado was surprised and tried again. Then, he took a handful of dry feathers and dropped the spark on them.

There was a flame. So he gathered dry grasses and some wood, and put them on the flame. He cried happily: " This is a great gift. I have discovered the fire! I will make sure that the fire will always burn without ever dying down." But the younger Alvarado had other plans: " It is better if people try hard for the fire. They mustn't earn it easily. Otherwise, they will get too comfortable. If someone extinguishes the fire, they should light the fire themselves." He said it and put out the fire.

### BETTER OR WORSE?

1. \_\_\_\_\_.

Actually, it is hard to compare life in the past with life in the twenty-first century because there are so many changes.

2. First of all, people couldn't travel such long distances in such a short period of time. The planes were not popular then because they used to be a very expensive means of transport.

Moreover, in the past, people used to work much harder because they did not have tools to make their work easier. Today, computers and other machines do most of the difficult and dangerous work. In the past, the conditions of living were not as comfortable as they are now. There didn't use to be bathrooms and running water in many houses, besides many people could not afford household appliances like fridge, TV set or vacuum cleaner because they used to be luxurious goods.

3. Another difference between living now and in the past is the fact that nowadays access to education is much easier. \_\_\_\_\_.

Besides, nowadays it is much easier to find the educational materials because we have the internet.

4. \_\_\_\_\_.

So people used to spend more time with their family and friends. They also respected their traditions. Traditions teach younger generations a lot of things and help relationships to be stronger, but, nowadays, most people prefer to have lonely lives.

5. As a result, it is clear that life has changed significantly in the last couple of years. It is definitely much easier now. The scientific achievements and technological progress are amazing. We still create new inventions to make our lives simple. On the other hand, however, life now is much faster and busier than it used to be. Moreover, it has also become more dangerous. \_\_\_\_\_.

1.

Read the text and write true (T) or false (F).

I'm really interested in ecology and my heroine is Rachel Carson (1907-1964) because she was the first person to make people think about humans' damage to the Earth's ecosystems. She began as a biologist, specialising in writing about the sea, but she gradually became aware of the danger of using synthetic pesticides like DDT (Dichloro Diphenyl Trichloroethane) and learned they could harm the whole of the food chain, from the worm to humans! She wrote her classic book *Silent Spring* in 1962 to explain this to the general public. The title of *Silent Spring* says that one day all the birds will be dead so they won't be able to sing in the springtime. The agricultural and chemical industries reacted very badly to the book and said she was unprofessional. But other scientists researched and proved that she was right about the dangers of chemicals. She said some chemicals would kill insects. Nowadays there is a movement for organic food production, but unfortunately, things in general are still getting worse.
